

4.6 Lingmoor Fell 5

Images from the walk to the waymarker tree.

The easy grass path (seen below at lower-left) climbs steadily, revealing improving views over Side Pike to the Langdales, Bowfell, Pike O'Blisco and the Crinkles.

Near the upper stone wall the panorama is impressive – everything is on show in a westward arc from the Langdales to Cold Pike.

European larch on the western slopes of Lingmoor, a steadfast mountain tree, on any fellside.
