

3.11 Raven Crag 3 and 4

Images from the walk to the waymarker tree.

Through the deer fence gate the metallated track becomes a rising boardwalk to the summit.

Emerging from the forest onto the summit lookout, looking directly eastwards.

Looking southeast down the length of Thirlmere, with Helvellyn and its range behind.

Looking northeast to High Rigg below in the middle distance, with Clough Head at the terminal end of the Helvellyn range and Blencathra on the far skyline.

A forest panorama, from the lookout; *upper* (south), *centre* (west) and *lower* (north) show a mix of pine, spruce and Douglas – with many trees dead, fallen and storm-damaged.
